THIS DISH COOKS ON "OFF"

THE modern automatic electric range adds another miracle to its bag of cooking tricks! Savory macaroni is cooked entirely almost without using any fuel. To prepare this delicious dish you merely heat tomato juice and pulp to boiling on the surface unit. Add browned meat and uncooked macaroni; then turn off the heat! But why do this? Because in the coils of the heating unit there is stored sufficient heat to maintain the cooking temperature throughout the 25 minutes of the cooking period! It's the modern economical way to cook.

There's nothing dearer to the eart of a mid-western farm lad ungry bull-head. A magnificent span of steel and concrete now carries the highway across Squaw Creek, the origina wooden structure having long ince passed away, but the name lingers and the ghost stories still persist-it's still Hangman's Bridge. THE modern automatic electric range adds another miracle to its I bag of cooking tricks! Savory macaroni is cooked entirely almost without using any fuel. To prepare this delicious dish you merely heat tomato juice and pulp to boiling on the surface unit. Add browned meat and uncooked macaroni; then turn off the heat! But why do this? Because in the coils of the heating unit there is stored sufficient heat to maintain the cooking temperature throughout the 25 minutes of the cooking period! It's the modern economical way to cook.

## **VOTE DEMOCRATIC!** Save Your Farms!

Farm values shrunk 42 billions under 12 years of Republican rule. In less than four years of Democratic administration farm income has increased from the 1932 low of \$4,337,000,000 to \$7,400,-000,000 in 1936.

Values of all farm commodities have increased 141 per cent. The wheat crop in 1932 was worth \$282,000,000, in 1935, \$505,000,000; cotton in 1932, \$424,000,000, in 1935, \$593,000,000; hogs in 1932, \$261,000,000, in 1935, \$539,000,000.

Farm interest rates have been reduced from the high levels of 6, 8 and 10 per cent to an average of 4 per cent. Farm mortgages have decreased 11/2 billion dollars.

#### Save Your Taxes!

Jesse W. Barrett, Republican candidate for governor, sitting as a member of the Board of Equalization, of which L. D. Thompson, Republican candidate for secretary of state, and George E. Hackman, Republican candidate for state auditor, were members, raised taxes on farm and town lots a total of \$65,000,000 in four years. Contrast this with tax savings of \$86,000,000 in the four years of the Democratic administration of Governor Guy B. Park.
